**Lebhafter Hass**

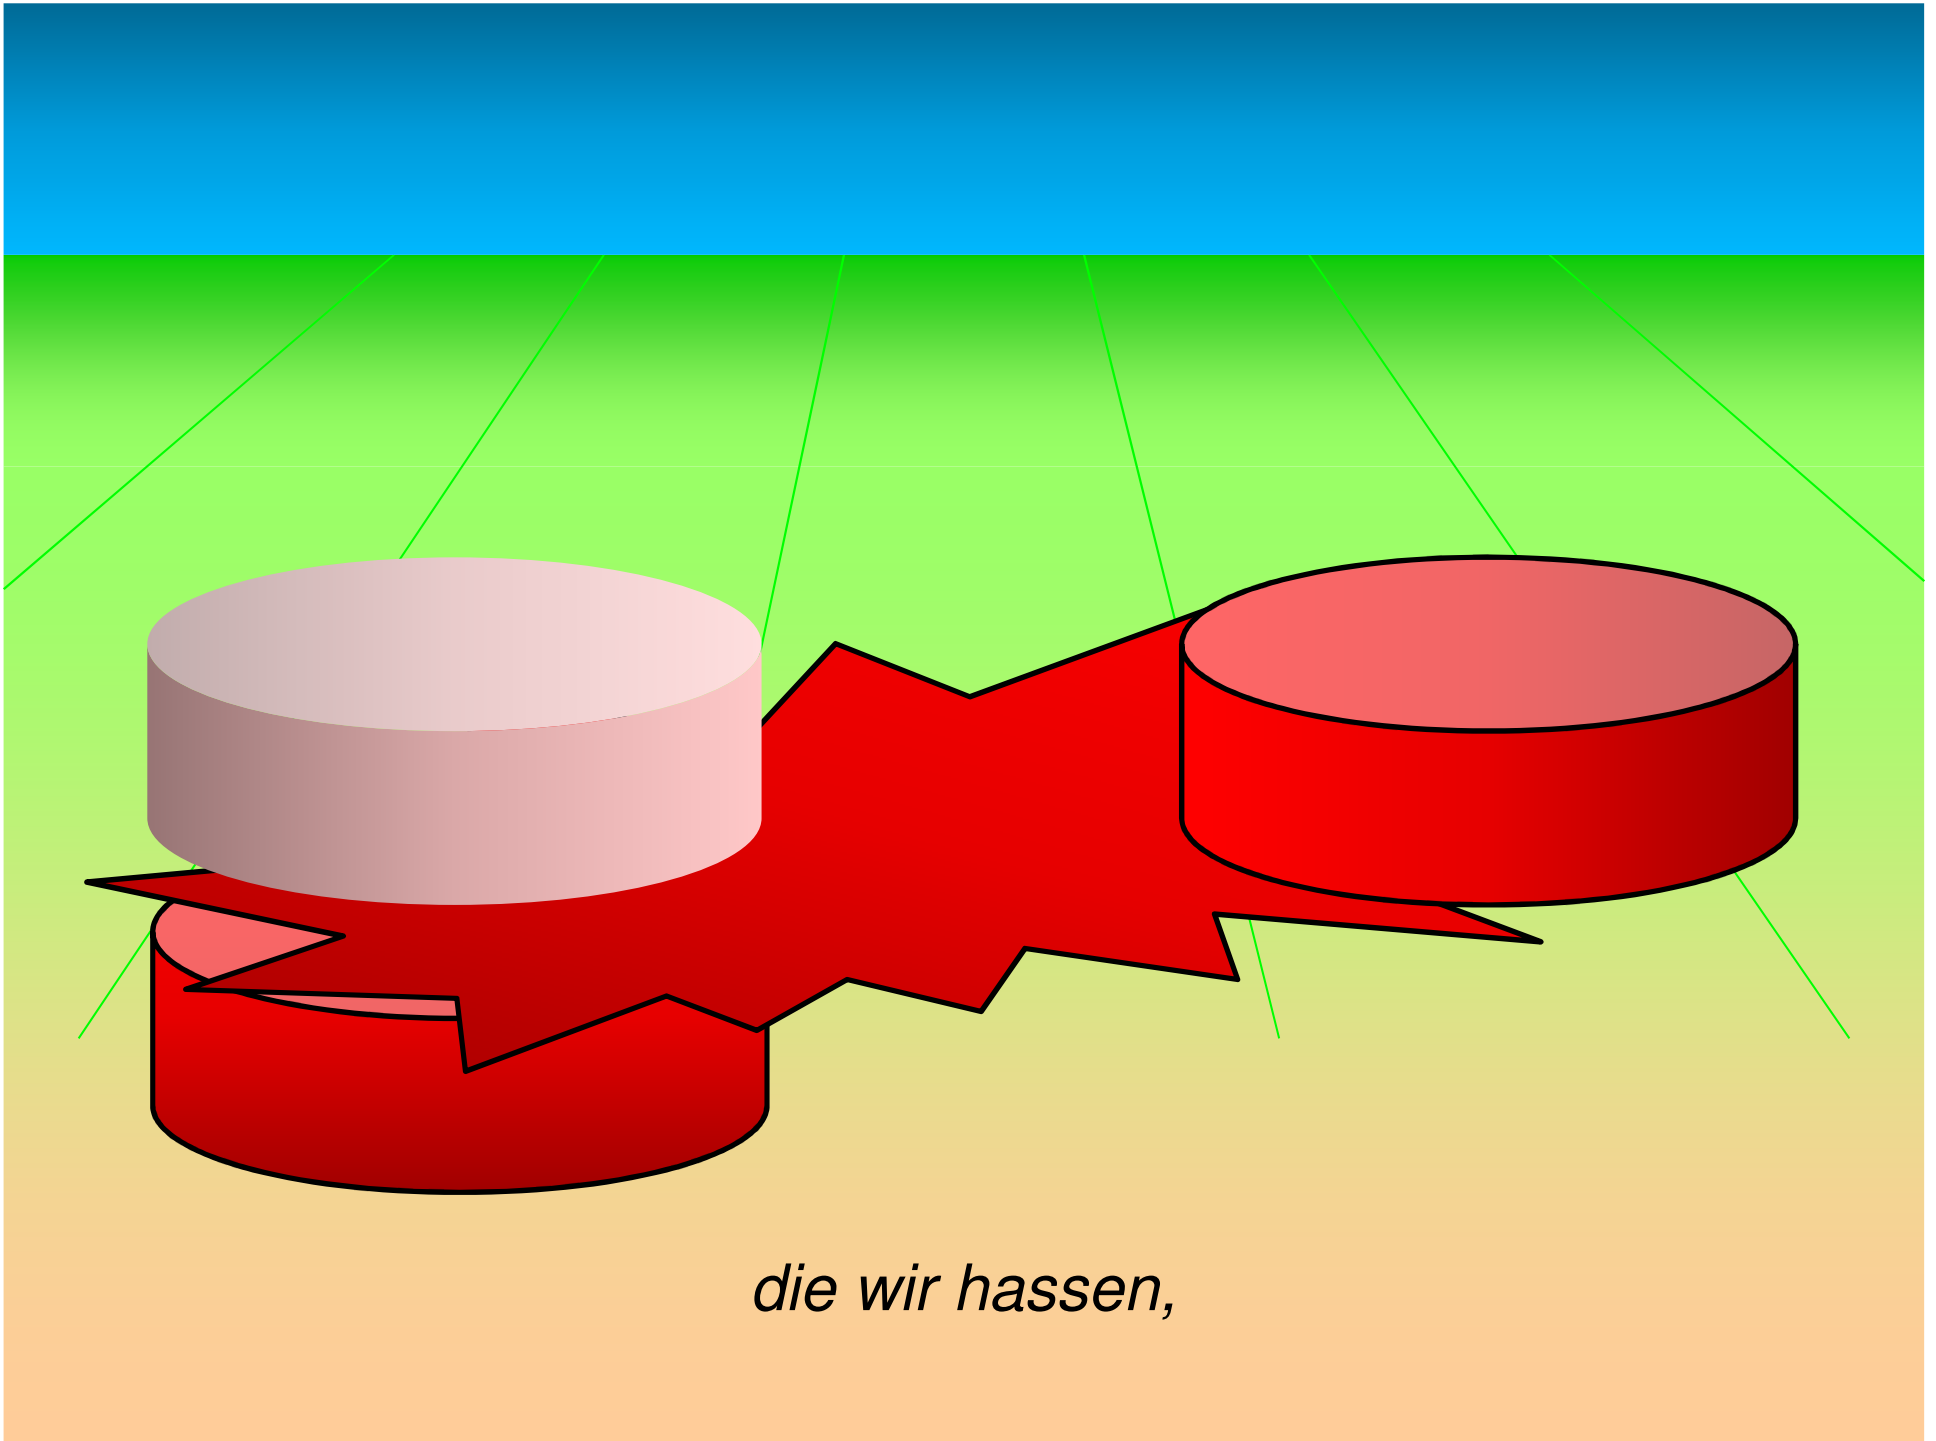

*Wenn unser Hass*

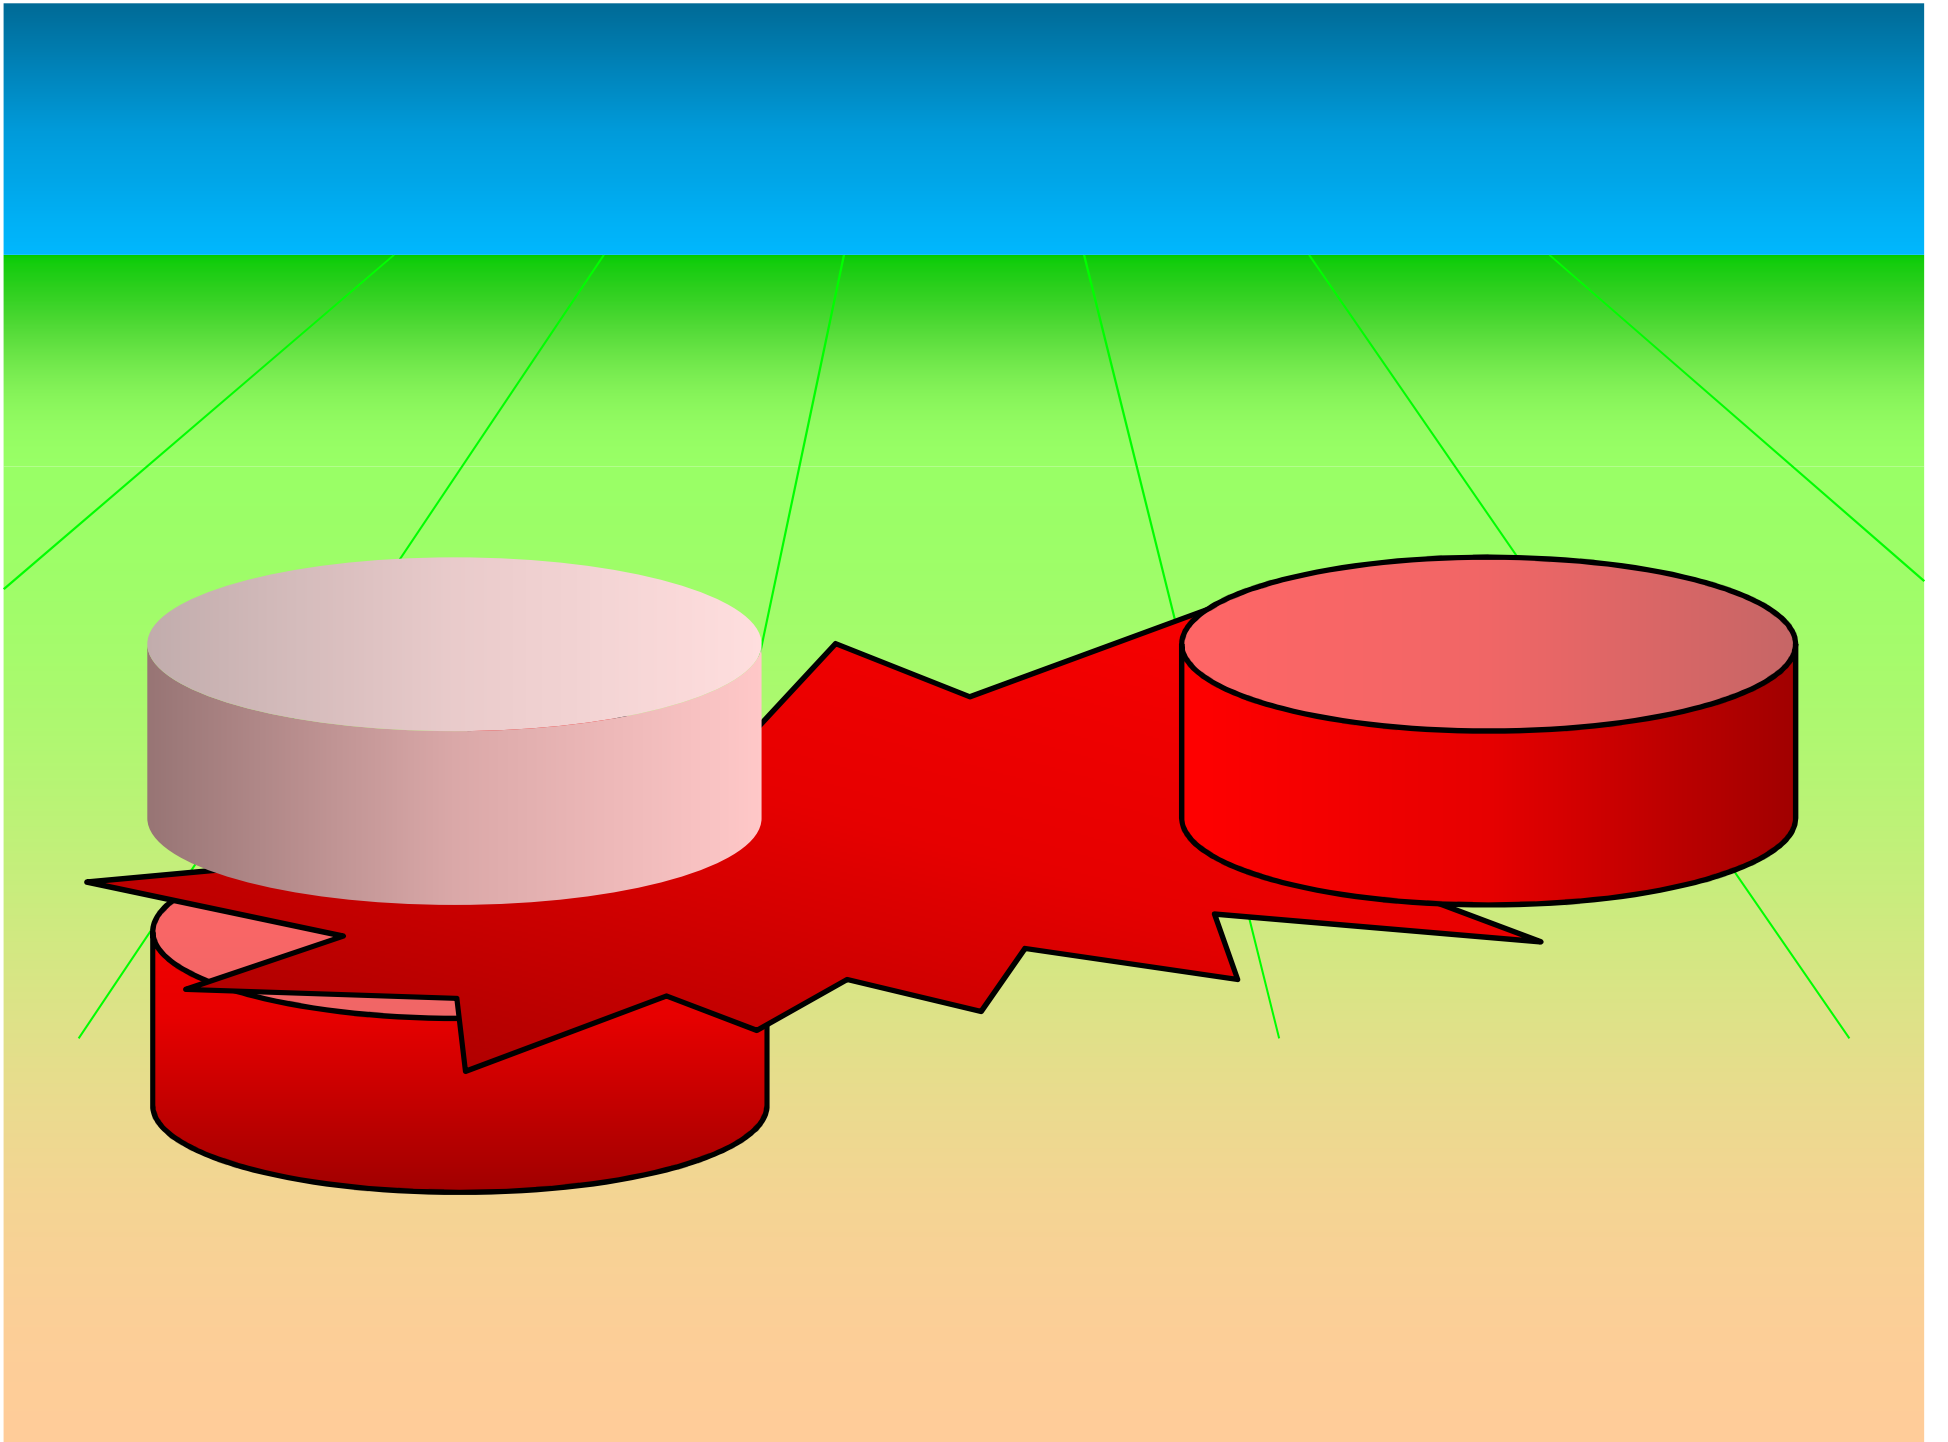

*zu lebhaft ist,*

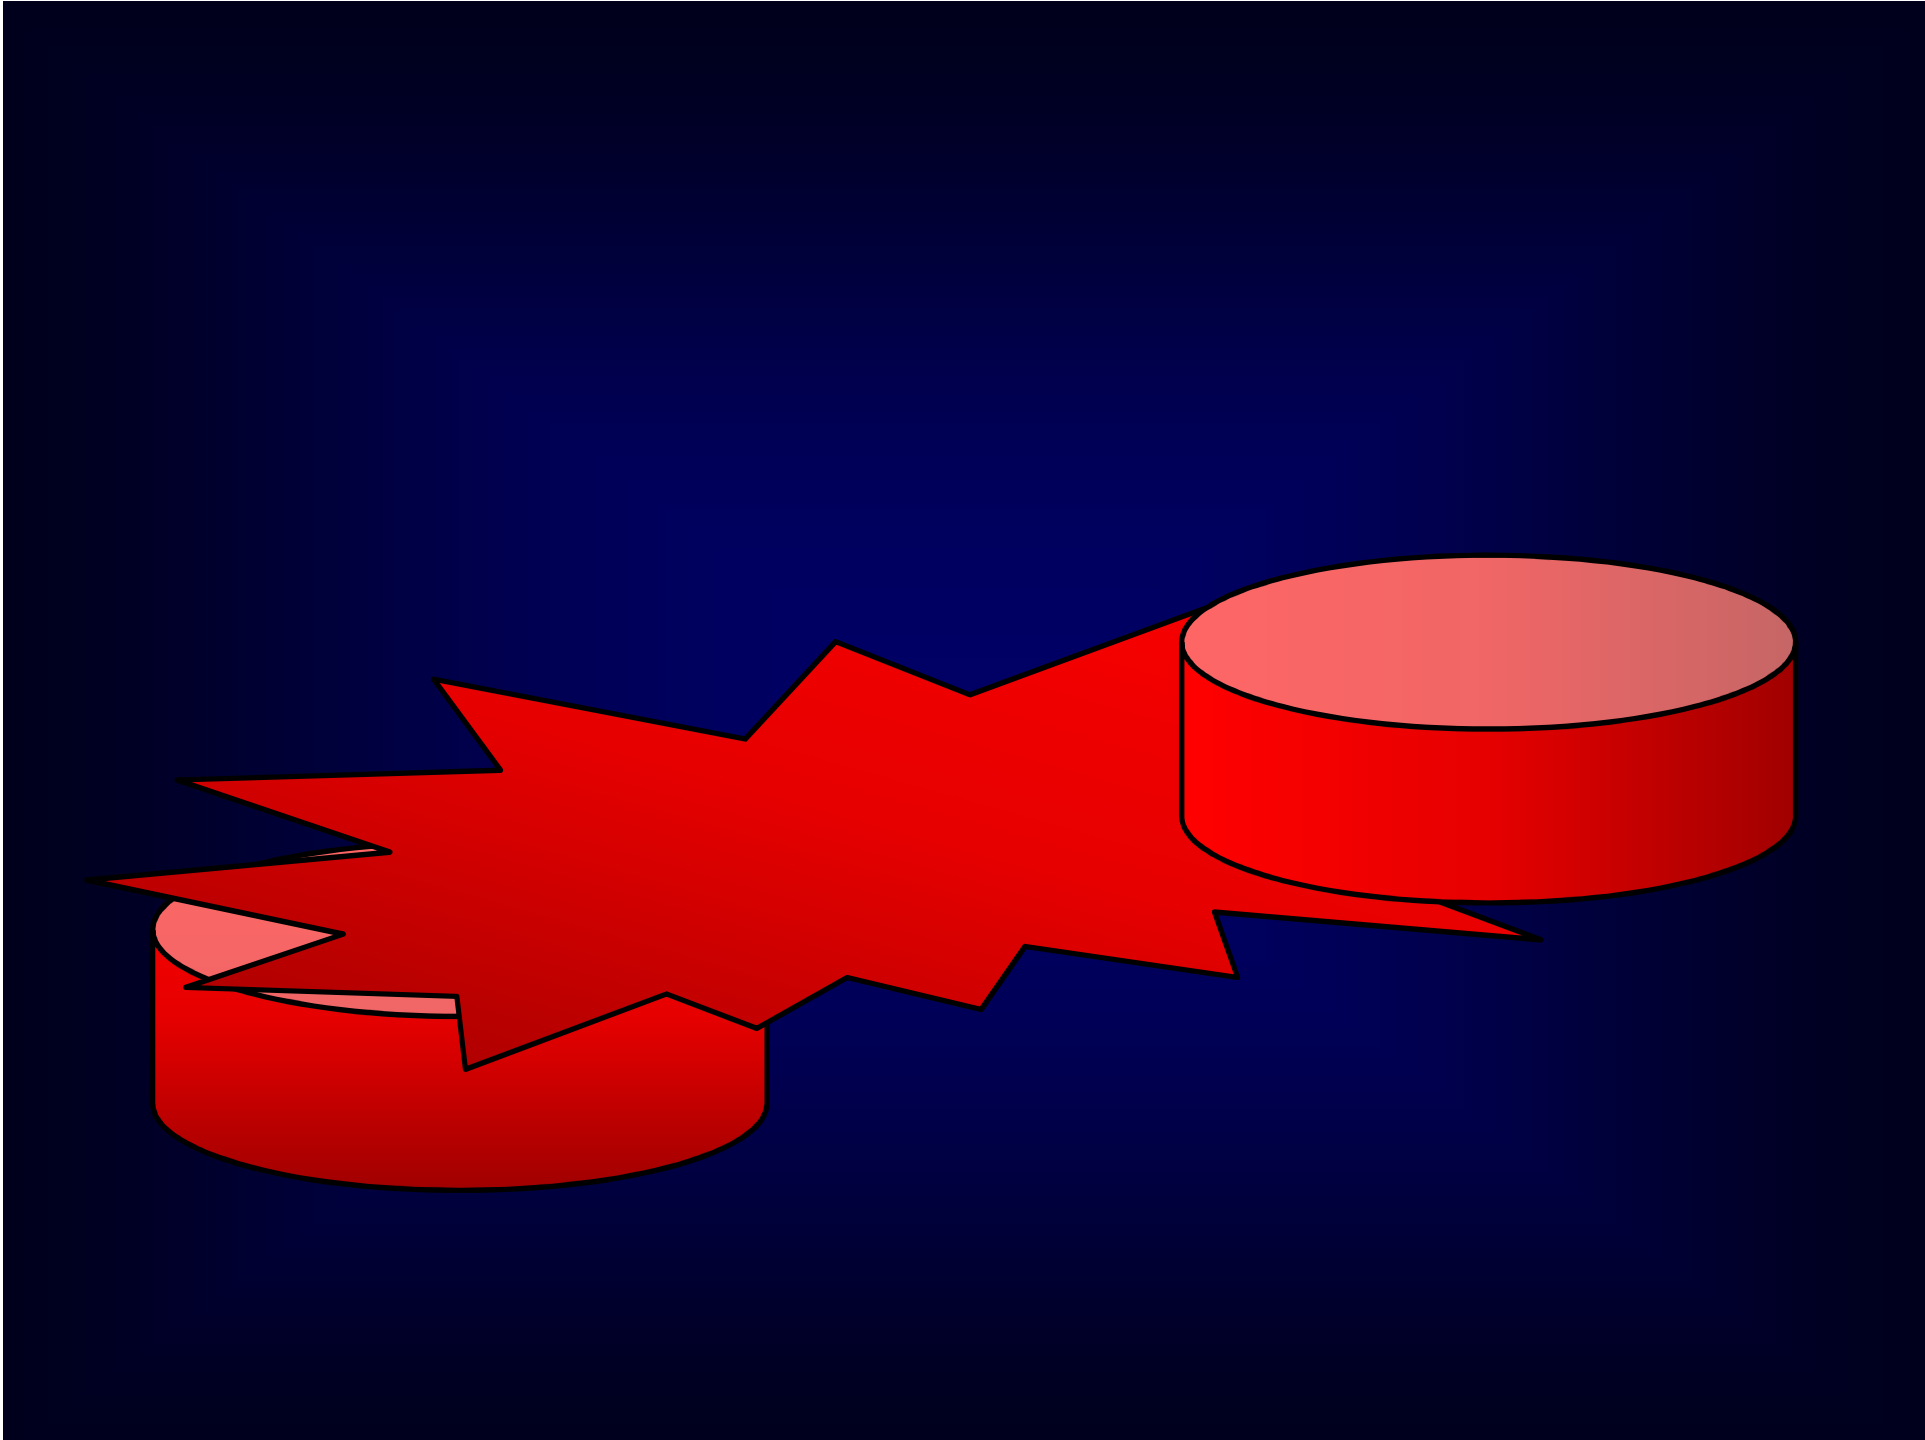

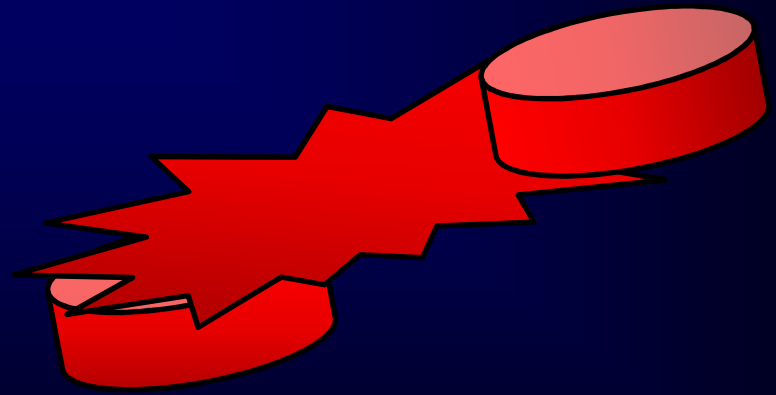

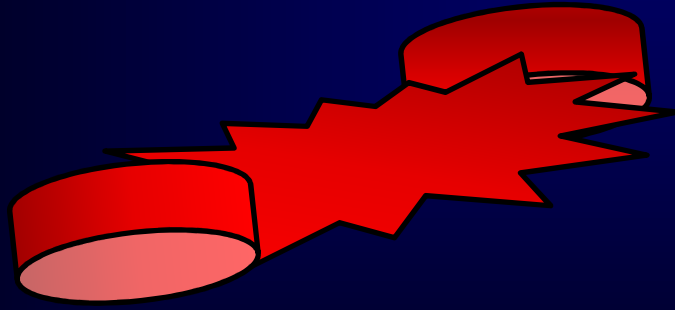

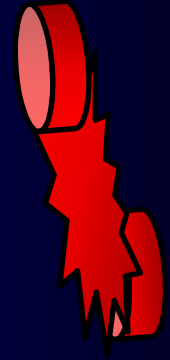

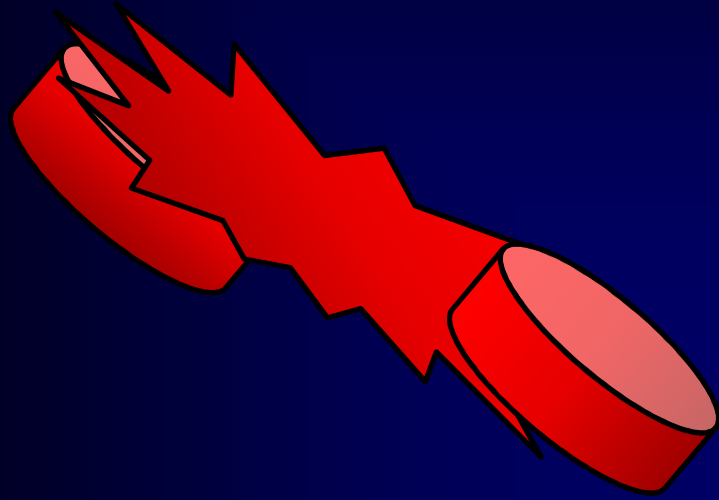

*erniedrigt er uns unter die,*

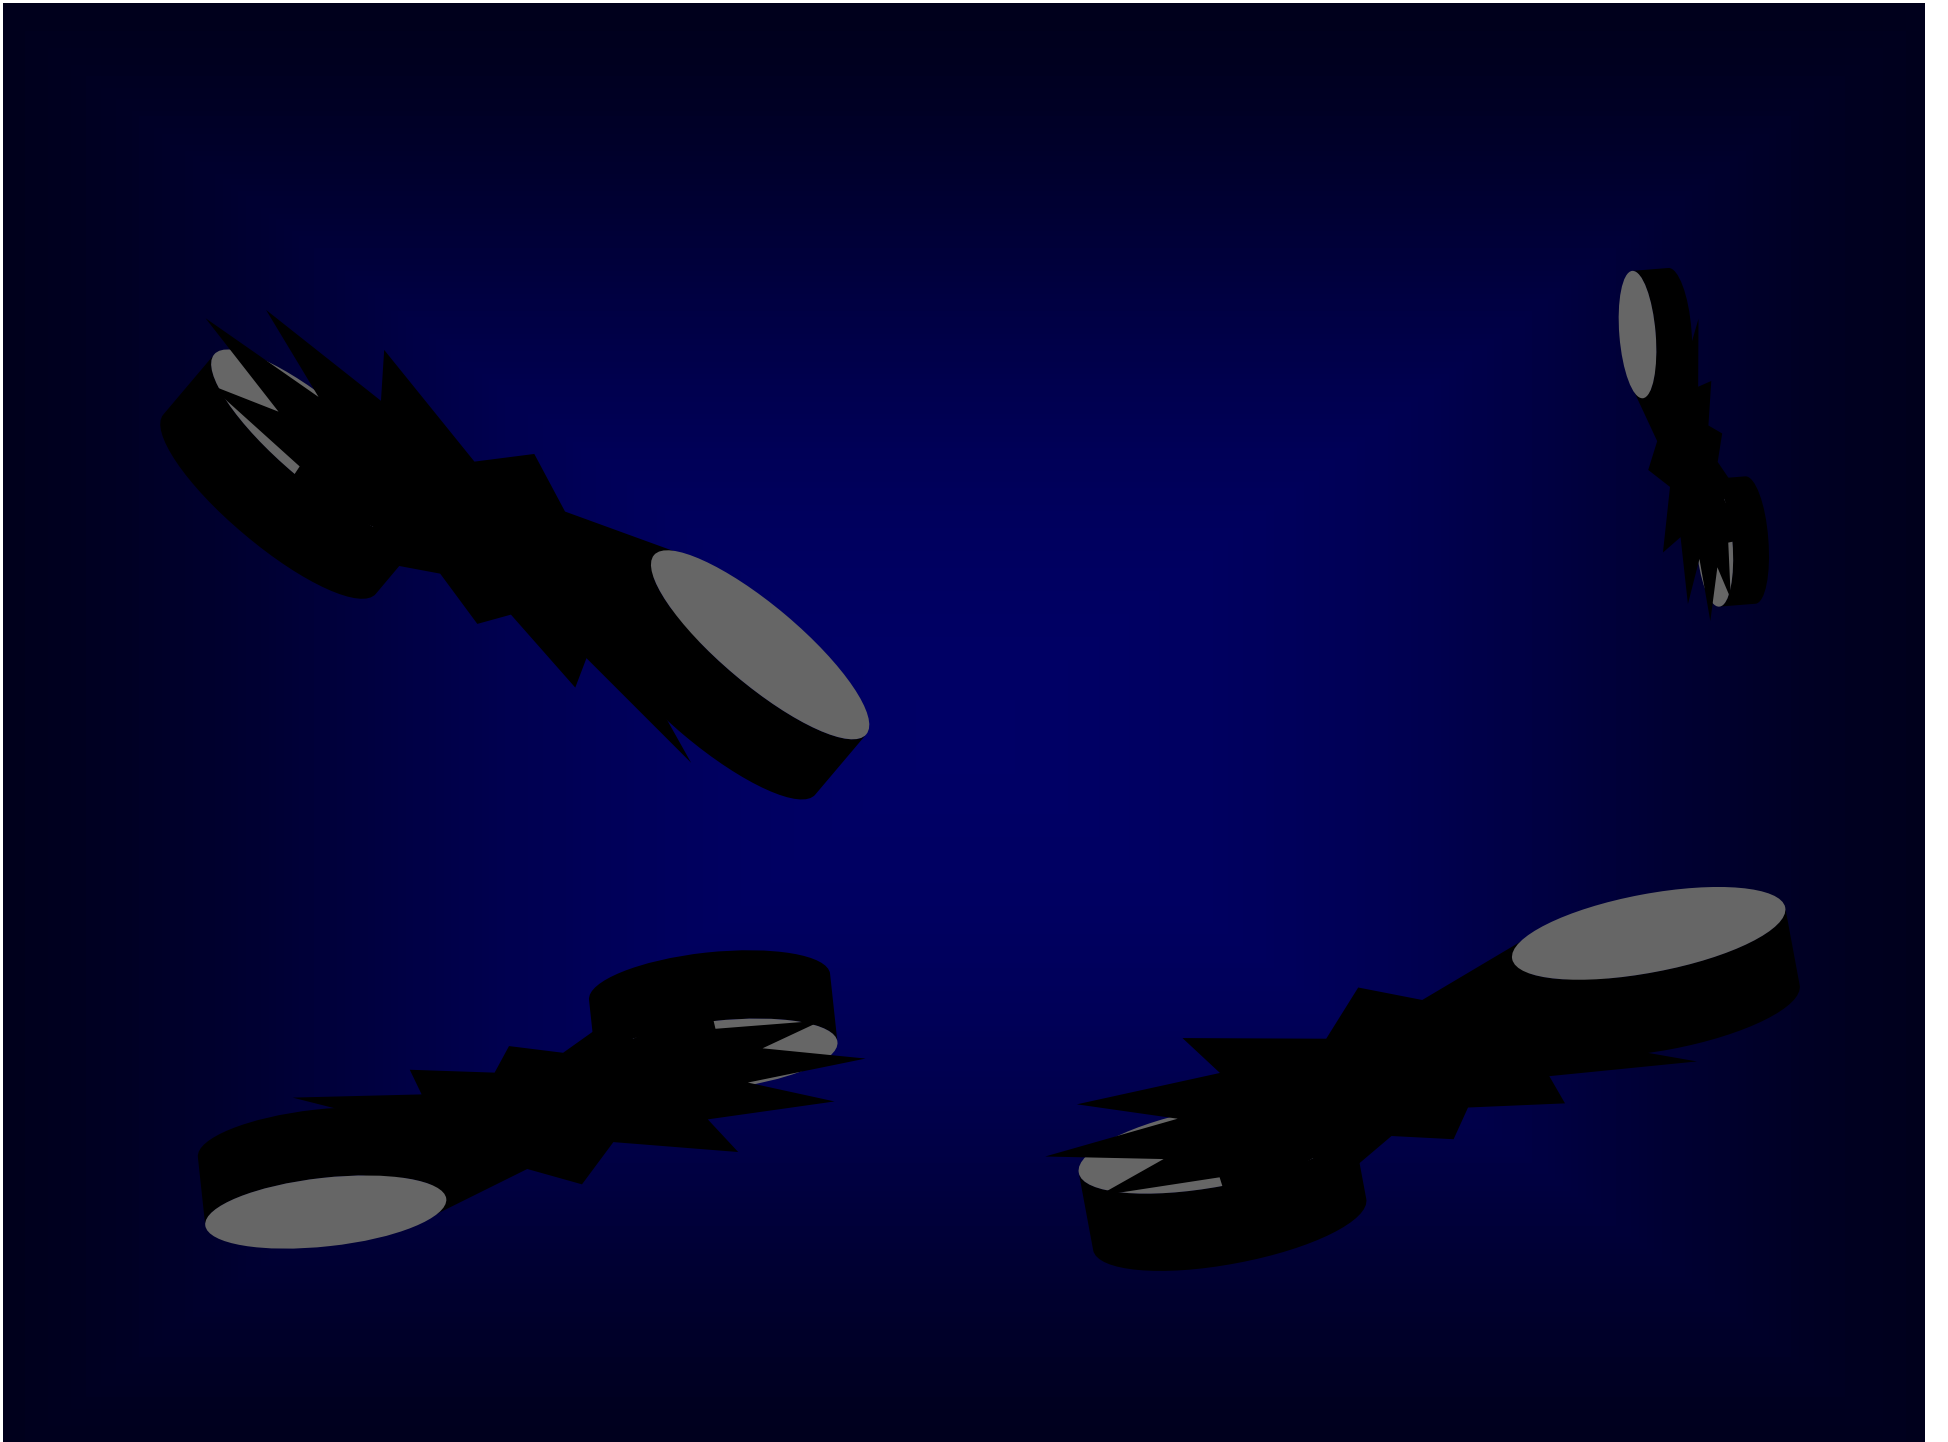

*die wir hassen,*

**Lorsque notre haine est trop vive, elle nous met au-des-dous de ceux que nous haïssons**

Hass: hier offenbar eine existenzielle Tatsache  
(im Bild: sie "zieht in den Bann").

Kultivierung oder mangelnde Domestikation des Hasses:  
nicht nur Verlust der Achtung gegenüber dem Anderen,  
sondern noch mehr gegenüber sich selbst  
(im Bild 8 und 9: universelles Prinzip).
